

Own A Gun?

You are responsible for securing your firearms.

1

Always handle a firearm safely, pointing it in a safe direction and treating it as if it were loaded.

2

Unload the firearm prior to locking and storage.

3

Store the key to the cable lock and ammunition separately from the firearm.

HANDGUNS

Thread the cable lock through the ejection port and out the empty magazine well.

RIFLES & SHOTGUNS

Thread the cable lock through the ejection port and out the loading port.

REVOLVERS

Thread the cable lock through the barrel or through two chambers in the cylinder.
